

Penn Waste Inc., York, PA

Penn Waste, York, PA

Location: York, PA

Description: Corporate & Recycling Facility Office Areas

Flooring Choice: ECOsurfaces Commercial Flooring

"Committed to keeping the area we all live in beautiful and clean for years to come."

Educational Institute Design and Product Needs:

- Recycled composition to promote an organizational commitment of resource conservation
- Professional design to enhance the visual appeal of corporate and facility offices
- Durability and versatility for a practical and long-lasting application
- Easy maintenance requirements for time and cost effective floor quality preservation

ECOsurfaces' delivering characteristics:

- Highly recycled SBR tire rubber and ColorMill EPDM composition
- Color Patterns of "Lost in Space" and "Sea Spray" to evoke a distinguished and professional atmosphere
- Superior surfacing strength for a long wear life and minimal replacement expenses
- Simple maintenance and installation requirements for low overall life-cycle costs

ECOsurfaces, like Penn Waste Inc., maintains a priority of promoting sustainable initiatives and renewing the condition of the natural environment by recycling and reusing expired resources. This shared priority made the installment of ECOsurfaces Commercial Flooring in the offices at Penn Waste facilities a joint statement of support for environmental preservation through quality recycling innovation. With approximately 900 square feet of the “Lost in Space” color pattern installed in the corporate office building and various portions of the “Sea Spray” pattern in offices and hallways at the recycling facility, ECOsurfaces presented Penn Waste with stunning design and professional ambiance, transforming a previously carpeted locale into a vibrant and distinguished working environment.

Penn Waste Incorporated is an organization committed to making a positive community impact by providing services that surpass mere customer satisfaction. With many years of quality experience in waste management, Penn Waste Inc. effectively serves more than 100,000 customers in southern Pennsylvania by providing reliable and efficient recycling and collection services. In consideration of renovations to some of its office facilities in York, PA, Penn Waste sought flooring characteristics of recycled content, distinguished visual appeal, and efficient maintenance as key priorities. ECOsurfaces Commercial Flooring delivered and exceeded these priorities, installing floors that are professional in appearance, easily maintained, and produced predominantly of recycled material.
