Versatile, durable, and sustainable — ECOsurfaces Classic has been a staple in the commercial flooring market for more than 30 years.

ECOsurfaces is a sustainable flooring company dedicated to improving lives—for people today and for generations to come.

For over 25 years, we've designed surfaces that help people thrive.

We're focused on the interaction between people and surfaces: how to optimize performance, maximize comfort, and protect the Earth—our ultimate base layer—for generations to come. We use innovative technology to engineer industry-leading performance attributes related to acoustics, ergonomics, and safety. Using valuable materials harvested from the global waste stream, we create products that achieve the optimal balance of force reduction and energy restitution—each expertly customized to the goals of its unique application.
